Lake Timberlane Fishing Rules and Regulations

General Rules

1) All GSUSA and ACA standards must be followed at all times.

2) Fishing in Lake Timberlane is catch and release only.

3) All hooks must be single shank and barbless. Crimping of barbs is acceptable but no treble hooks.

4) Fish should be handled as gently as possible and must be immediately returned to water.

5) If a hook is deeply swallowed by fish, the line should be cut rather than forcing the hook out.

6) The use of live minnows and leeches as bait is prohibited. Live bait (earthworms, wax worms, insects, etc) is allowed but not minnows or leeches.

Derby Regulations

1) Fishing competitions are to be determined by number of fish caught, not length or weight.

2) The western bulb of Lake Timberlane is off limits to fishing during competitions.

3) Derby organizer is responsible for informing all participants of rules and for checking hook acceptability (barbless, no trebles) before fishing begins.

4) Girl Scout council requires the derby organizer to report the following:
   a. Total number of fish caught by species
   b. Any fish that were killed during derby
   c. Number of lines that were cut because fish swallowed hook
   d. Total number of poles in the water
   e. Time period of fishing derby
