

Returning to In-Person Troop Meetings and Activities Interim COVID-19 Guidance for Volunteers

Edition date: 6/1/2020

This guidance is being provided as of the Edition Date. These guidelines were originally provided by GSUSA, but have been amended by Girl Scouts of North East Ohio (GSNEO) to consider the [Responsible RestartOhio](#) and other [Ohio Department of Health](#) guidance. It may be modified from time to time as circumstances change.

COVID-19 is an extremely contagious virus that spreads easily in the community. Take all reasonable precautions to limit potential exposure for girls, volunteers, and families.

The COVID-19 pandemic continues to change as infection rates rise and fall in different areas. There may be regional differences or developments since this guidance was published. Continue to follow local, state, and national directives. Discuss plans with families.

Use these questions and reminders to help decide how and when to return to troop activities.

Troop Meeting Space. Outdoor spaces where social distancing can be maintained are strongly recommended for meetings.

For meetings held at public facilities, contact the facility ahead of time and ask:

- Is the space cleaned, and touch surfaces (i.e., tabletops, light switches, chairs, etc.) sanitized, at least daily?
- Who else uses the space (how often, what size is the group)? Is the space cleaned between groups?
- What type of faucets / soap dispensers are available in the restroom (sensory or manual)?

Then, consider whether you can supplement any practices that are less ideal. For example, if you will arrive after another user group, plan to bring sanitizing wipes to get the space ready for your troop. Another example: if faucets are manual, take some time to show girls how to shut them off with a paper towel. Use paper towels for doorknobs whenever possible.

Meetings may not be held in fitness centers or gyms, where a greater risk for contracting the virus may exist. Schools or churches may not permit outside groups on premises, so always check and confirm ahead of time.

Troop Meetings in the home. GSUSA strongly suggests no meetings in the home out of concern that there would be greater risk of exposure to other family members. The recommendation is to stay away from in-home meetings for the time being.

Troop Meeting Size. The current GSUSA suggested maximum is ten people (eight girls and two unrelated adult volunteers). However, check Ohio's latest information for small gatherings <https://ohio.gov/wps/portal/gov/site/media-center> for guidance. If more restrictive, follow the local restriction.

If you are planning to travel outside of Ohio, be aware that restrictions vary greatly from state to state, county to county, and even from town to town--and frequently change. If a state allows

more than ten to gather, utilize all social distancing practices and follow all preventative guidance (such as face coverings). Get clearance from your council before planning any gatherings of more than ten people.

If you have a large troop, stay connected while you wait for a safe time for everyone to gather. Large troops are wonderful, so stay together! Some ideas:

- Host virtual troop meetings (see below).
- Gather up in smaller groups—such as age-level groups, patrols, or groups of girls with a particular badge they'd like to work on.

Transportation. Individual parents drop off and pick up their own girls from meetings. Carpooling and public transportation should be avoided, where possible, to maintain social distancing.

Virtual meetings. Meeting options may need to be flexible based on the fluid nature of COVID-19 risk. Troops that are able to run online meetings as needed (or wanted) should do so. Use the [Safety Activity Checkpoints](#) for Virtual Meetings, to guide your meeting plans.

Other helpful resources can be found here: [Girl Scouts at Home](#)

Day trips and activities. In conjunction with Safety Activity Checkpoints, follow the same guidance as Troop Meetings and Hygiene and COVID-19 Risk Mitigation guidance in this document. Call ahead to the facility or vendor to confirm that they are following state health department guidelines. If activity or sporting equipment is being provided, ask the provider if they wipe down equipment in between uses, similar to equipment at the gym. Make whatever appropriate accommodations that are necessary. For example, bring extra sanitizer if none will be provided for public use at the activity location.

Travel and overnight stays. Overnight trips are not permitted until after the home state is successfully past Phase 3 of its re-opening process. The timeframes will vary from state to state and even from county to county in some cases. As always, [contact GSNEO](#) for prior approval before planning any overnight stays and follow guidance in [Safety Activity Checkpoints](#).

Food/beverage guidance. If you are opting to provide/serve food or beverages at your meeting, please ensure you:

- Disinfect the space before meal/snack time, and again immediately after.
- Have all members wash their hands before and after eating.
- Use clean, new, disposable, or compostable plates and utensils, and properly dispose of used items after eating.
- Consider pre-packaged food items to limit preparation and contact.
- Have only volunteers serving food, drinks, and providing the utensils for each girl. Gloves and face coverings are to be worn when preparing and serving.
- Do not allow any buffets, family-style meals, or communal, shared, or self-serve food items.

Hygiene and COVID-19 Risk Mitigation. Follow the [resources offered by the Ohio Department of Health](#) or your local public health department. Share these with girls and volunteers and ensure that they are practiced during meetings and activities. Place [signs](#) in the meeting or activity space to remind girls and volunteers to engage in [everyday preventative actions](#) to help prevent the spread of COVID-19.

Some basic hygiene tips include:

- Stay home if you are sick.
- Cough and sneeze into a tissue, throw the tissue in the trash, and wash or sanitize your hands.
- Wash your hands often with soap and water for at least 20 seconds, especially after going to the bathroom; before eating; and after blowing your nose, coughing, or sneezing. If soap and water are not available, use a hand sanitizer that contains at least 60% alcohol.
- Avoid touching your eyes, nose, and mouth. Wash hands if you do touch.
- Volunteers, girls and parents should be reminded to make sure temperatures are taken prior to group interaction to confirm the individual is not running a fever and temperature is a normal 100.0 degrees. Members with fever or temperature of or higher than 100.0 should skip the in-person gathering until their temperature is normal.

Personal contact. Hugs, handshakes, “high-fives,” and even activities like the friendship circle or squeeze can transmit COVID-19 from person to person. Refrain from these gestures for the time being. Create a safe, no-contact way for girls and volunteers to greet and end meetings.

First Aid Supplies. Troop first aid supplies should include COVID-19 prevention items including hand sanitizer (at least 60% alcohol), tissues, disposable facemasks, and disinfectants. Trash baskets or bags should be supplied for meeting and activity spaces, if not already available. Make sure that the trash baskets (or bags) are easily accessible for girls. Disposable or no-contact thermometers may be added to supplies if available and not cost-prohibitive, however, parents should be checking temperatures and allowing their girl(s) to join group activities only when temperatures are normal.

First Aid / CPR Training. Keep skills up-to-date for any emergency. Contact Customer Care at 800-852-4474 or customercare@gsneo.org about alternative methods of training that may be available during this time.

Disinfectants and Disinfecting. [Routinely clean and disinfect surfaces](#) and objects that are frequently touched (i.e., table tops, markers, scissors, etc.). Use a household cleaner, or see the [EPA's list of effective cleaners](#) approved for use against COVID-19. Follow the manufacturer's instructions for all cleaning and disinfection products (e.g., concentration, application method and contact time, etc.).

Household bleach is effective against COVID-19 for up to 24 hours when properly diluted. Check that the bleach is not expired and determine if it can be used on a given surface. Follow the manufacturer's instructions for application and proper ventilation. Never mix household bleach with ammonia or any other cleanser.

To prepare a bleach solution, mix:

- 5 tablespoons (1/3rd cup) bleach per gallon of water or
- 4 teaspoons bleach per quart of water

Face Coverings. Volunteers should remind girls that Girl Scouts wear face coverings (masks) not only to protect themselves but to protect others. Face coverings are a civic responsibility and a sign of caring for the community. Girls can bring their own face coverings. Have disposable masks on hand for those who need them. Volunteers can teach girls [how to handle](#)

[their face coverings](#) so that the coverings are effective. Some girls or volunteers may not be able to wear masks, due to medical conditions such as asthma. Contact your council for guidance on how best to handle these exceptional circumstances as they arise.

Reporting and communicating a positive COVID 19 test. In the event of a COVID-19 positive test result, do NOT contact the parents or troop members. Promptly contact your council in this situation. A **council staff member** and NOT volunteers, will be responsible for:

- Confirming and tracing the positive tester,
- Contacting the parents of anyone who may have been exposed (or other volunteers),
- Notifying a facility or homeowner where a troop has met, and
- Alerting the state department of health.

Remember that girl and volunteer health information is private and strictly confidential and should be only shared on a need to know basis with a council staff member. A council staff member and/or the local county department of health will be responsible for making contact to those effected.
